# *the look for fall...*

*is polished and put-together with ladylike silhouettes influenced by menswear fabrics. Building on combinations of feminine and masculine, menswear tweeds, glen plaids, pinstripes, and houndstooth checks are combined with satin, silk and chiffon. Trims in fur and leather or soft ruffles add luxurious detailing.*

*Accentuating the waistline will complete fall's shapely and polished look.*

# THE COLORS:

*Black & white leads the way in pop art prints and graphics. Black remains the solid choice for wardrobe staples while red is a strong second. Burgundy, bordeaux and claret make a striking statement.*

*The mauve/purple color family sends the message that good times are ahead. It is said that when fashion smiles on purple it outsells all other colors.*

**'60s MOD COLORS** are fabulous when used for accessories or a statement piece in your wardrobe. These vibrant colors will add life, excitement and a modern attitude when combined with your basics.
